MR DAN

SUPER SPICY GUN GAME

Quick Launch

(Assuming Spicy.exe already exists on your computer)

- Double click on the Spicy.exe file to run the game.
- From the main menu, click "Options" to adjust settings or simply click "Play" to begin.
- Start, win, and lose screens have "Quit" buttons to exit the game.
- Additionally, at any time during the game press the "Esc" key to pause the game.

Download and Setup:

1. Go to: **https://downgit.github.io/#/home?url=https://github.com/SparkySparkyBoomMan2/Spicy/tree/main/SpicyExecutable**

2. Once downloaded, navigate to the folder "SpicyExecutable", and place this folder where you wish the game to run.

3. Inside the folder "SpicyExecutable", double click on the "Spicy.exe" executable file, to run the game.

4. For more help within the game, view the user's manual.
